Kiwi Knot Horse Fence

bayoZAL®

Made from 95% zinc / 5% aluminium BayoZal coated wire, Kiwi Knot Horse Fence is easy to erect and more cost effective than your traditional post & rail fence.

bayoZAL®

Manufactured using medium coatweight of Zinc-Aluminium wire for extended life over BayoGal Plus.

Applications

- ✓ Horse Fencing
- ✓ Security Fencing
- ✓ Perimeter Fencing
- ✓ Tree Guard

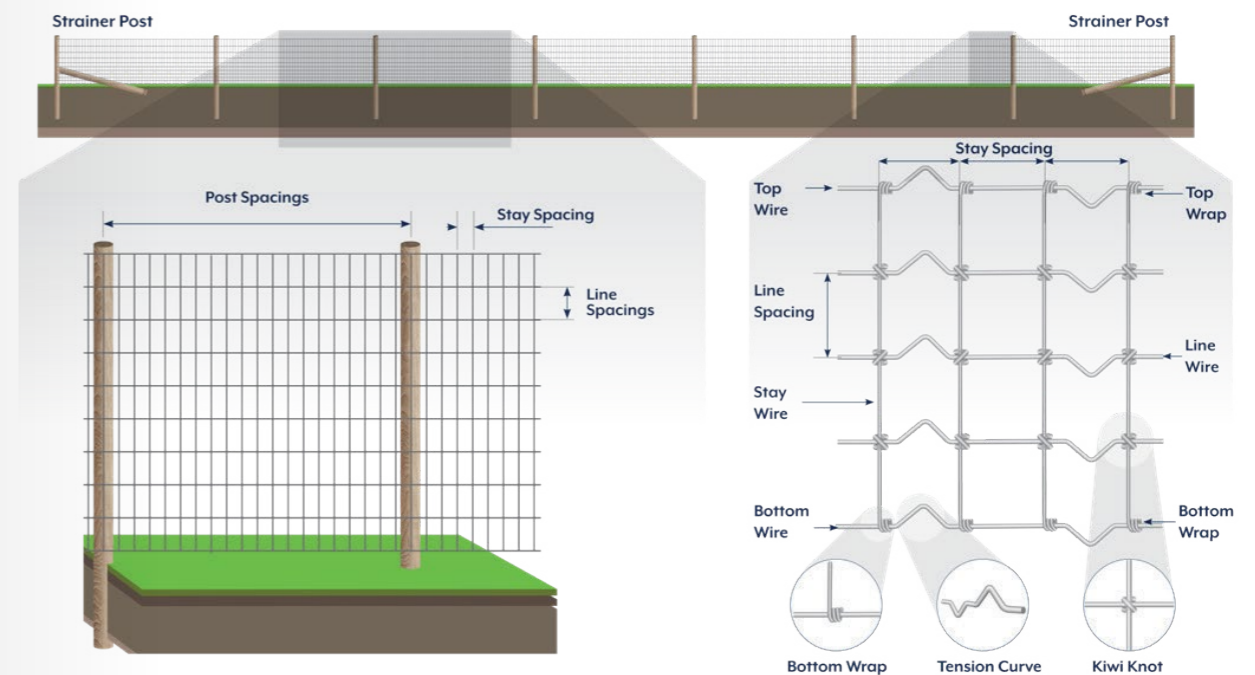

Features

- ✓ **Cost Effective**
 - More cost effective to install due to less labour and material cost versus a post & rail fence.
 - Super-sized inner core ensures full length of netting unrolls easily.
 - Can be used on material handling equipment.
- ✓ **Corrosion Protection**
 - Designed to withstand New Zealand's harsh weather and chemicals thanks to BayoZal's 95% zinc / 5% aluminium wire.
- ✓ **Animal Friendly**
 - Kiwi Knot Horse Fence is designed to have no sharp edges in the knots.
 - 50mm vertical spacings are difficult for Horses and Foals to get legs tangled in the fence, mitigating opportunities for injuries to Horse legs.
 - Manufactured using a lower tensile wire compared to traditional prefabricated fence, reducing the risk of leg injuries.
- ✓ **Appearance**
 - The small compact Kiwi Knot design is visually appealing in both horse fencing, sheep & beef fencing, exotics & predator fencing, or security fencing applications.
- ✓ **Flexible**
 - Tension curves allows for the fence to flex under pressure but still retain its form.
- ✓ **Choice**
 - A range of sizes with customised horizontal line wires, fence heights and roll lengths to suit any application.
- ✓ **Traceability**
 - This product is batch marked and can be traced back to point of manufacture.

Product Sizes

Stock Code	Line Wires	Roll Height (MM)	Stay Spacing (MM)	Roll Length (LM)	Roll Weight (KG)
KK16152550BZ	16	1520	50	50	114
KK13122550BZ	13	1220	50	50	92
