Manufactured
for New Zealand
conditions

Version 1

History

THE EARLY DAYS

In 1972, Doug Bishop and his son Paul built a machine that could turn out bituminous building paper for the construction industry. Naming their business Paul Industries, they began trading.

Doug and Paul purchased machinery to produce 75mm hexagonal roof netting to support roofing underlays.

SAFETY DRIVES INNOVATION

Labour requirements for safe working environments in the construction industry sparked the development of our Kiwimesh brand. The first, and to this day, the only company to manufacture this specialist roofing product & roof netting in New Zealand.

FACILITY & RANGE EXPANSION

In July 2015, the business consolidated three sites into one purpose built facility and office complex in Tauriko, Tauranga.

To grow our rural product range, we invested in plant and equipment such as a purpose-built machine which is the only machine of its kind in New Zealand – a brand new UMC Fixed Loko Fabricator that can produce high quality and quantities of Prefabricated Fencing with ease.

CELEBRATING 50 YEARS

Employing Kiwi's, manufacturing product right here in the Bay of Plenty and using Kiwi made wire with a solutions focused approach are at the core of the values we continue to hold tightly to.

2022

A PASSION FOR WIRE

Over the next few years, our business branched out into a range of hexagonal netting sizes and products. We were able to produce 41mm hex netting for rabbit fencing, opening the door to the rural market. Our product range expanded to include fencing wire, barbed wire, chainlink fencing and fence staples.

IT'S A WRAP

When the construction industry called for faster wrapping systems, we responded by using synthetic materials to prepare house wraps that met the highest quality standards.

FAMILY SUCCESSION

In March 2020, after nearly five decades in the business, Paul Bishop officially passed ownership of Paul Industries to sons Joel and Frank.

In January 2021, Joel and Frank Bishop rebranded Paul Industries as Bayonet and consolidated all its product brands under the same name.

Fixed Knot Farm Fence

bayoZAL®

Fixed Knot Farm Fence is an economical, durable solution to fencing for animals such as deer, cattle, sheep, goats, pigs, alpacas and ostriches. A line and stay wire fabricated fence system constructed with independent knots, providing load flex on impact.

Fence Layout

Features

- ✓ **Cost Effective**
 - More cost effective to install due to less labour and material cost versus a post & rail fence.
 - Hollow inner core is free of centre wires, allowing for easy lifting with material handling equipment.
- ✓ **Corrosion Protection**
 - Designed to withstand New Zealand's harsh weather and chemicals thanks to BayoZal's 95% zinc / 5% aluminium wire.
- ✓ **Flexible**
 - Tension curves allows the fence to flex under pressure but still retain its form.
 - Tied knot allows for movement and impact absorption.
 - Will follow contour in undulating ground.

Kiwi Knot Farm Fence

bayoZAL®

Kiwi Knot Farm Fence features a tight figure-8 wrapped knot, economical and quick to install. Applications for fencing include deer, cattle, sheep, goats & horses. Manufactured by Bayonet in the Bay of Plenty.

Kiwi Knot Farm Fence features one piece vertical stay wires and a tightly wrapped knot designed to be more animal friendly than other fabricated knot designs.

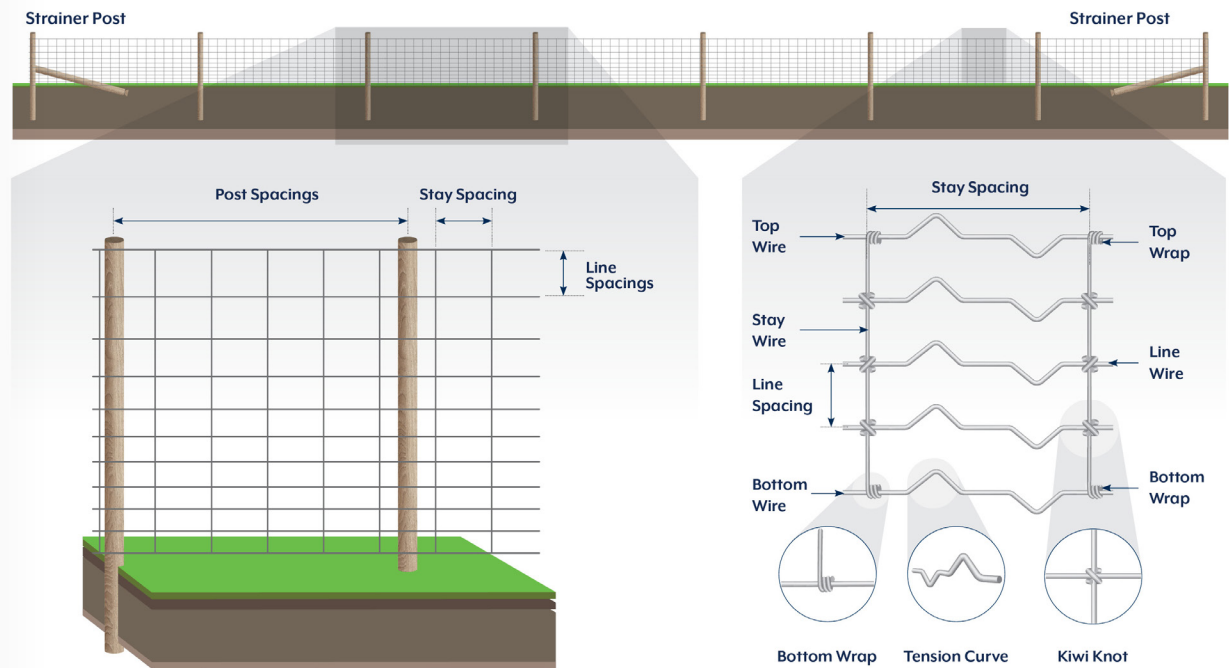

Features

- ✓ **Cost Effective**
 - More cost effective to install due to less labour and material cost versus a post & rail fence.
 - Hollow inner core is free of centre wires, allowing for easy lifting with material handling equipment.
- ✓ **Corrosion Protection**
 - Designed to withstand New Zealand's harsh weather and chemicals thanks to BayoZal's 95% zinc / 5% aluminium wire.
- ✓ **Durable**
 - Opposing Kiwi Knot angles provides high locking strength of stay wires increasing overall rigidity.
- ✓ **Animal Friendly**
 - Kiwi Knot has reduced opportunity for injury to animals compared to other pre-fabricated fences due to the tight figure-8 wrapped knot.
- ✓ **Flexible**
 - Tension curves allows the fence to flex under pressure but still retain its form.

bayoZAL®

Manufactured using a medium coatweight of Zinc-Aluminium wire for extended life over BayoGal Plus.

Applications

- ✓ Farm Fencing
- ✓ Predator / Exclusion Fencing
- ✓ Construction Site Fencing

Kiwi Knot Horse Fence

bayoZAL®

Manufactured by Bayonet in the Bay of Plenty, Kiwi Knot Horse Fence is cost effective and animal friendly - designed as an equine farm fence solution.

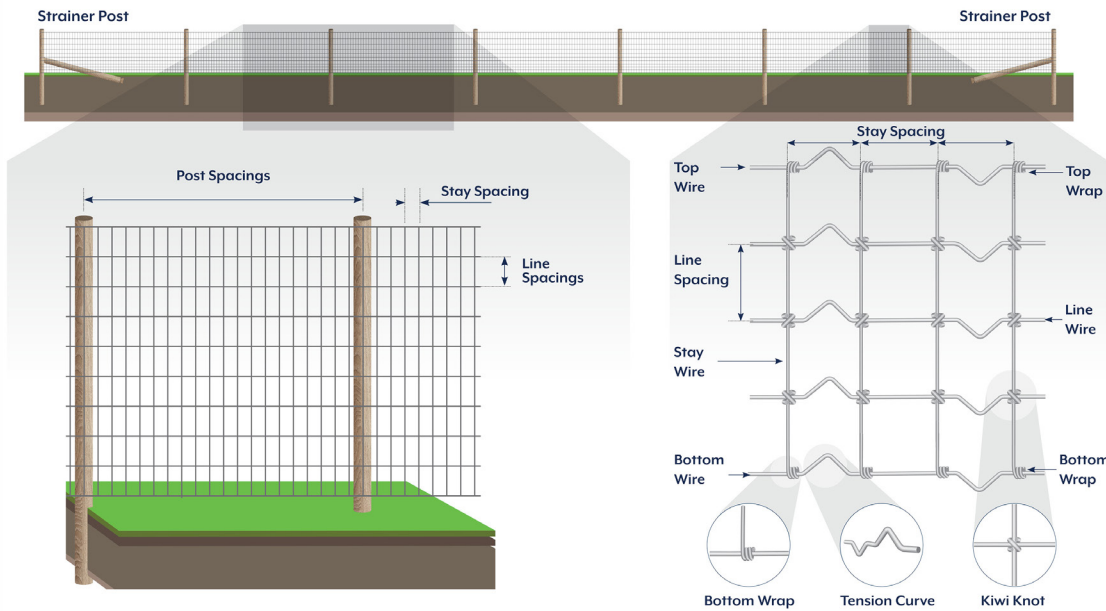

Made from 95% zinc / 5% aluminium BayoZal coated wire, Kiwi Knot Horse Fence is easy to erect and more cost effective than your traditional post & rail fence. Kiwi Knot Horse Fence features one piece vertical stay wires and a tightly wrapped knot designed to be more animal friendly than other fabricated knot designs.

Features

- ✓ **Cost Effective**
 - More cost effective to install due to less labour and material cost versus a post & rail fence.
 - Super-sized inner core ensures full length of netting unrolls easily.
 - Can be used on material handling equipment.
- ✓ **Corrosion Protection**
 - Designed to withstand New Zealand's harsh weather and chemicals thanks to BayoZal's 95% zinc / 5% aluminium wire.
- ✓ **Animal Friendly**
 - Kiwi Knot Horse Fence is designed to have no sharp edges in the knots.
 - 50mm vertical spacings are difficult for horses and foals to get legs tangled in the fence, mitigating opportunities for injuries to horse legs.
 - Manufactured using a lower tensile wire compared to traditional prefabricated fence, reducing the risk of leg injuries.
- ✓ **Appearance**
 - The small compact Kiwi Knot design is visually appealing in both horse fencing, sheep & beef fencing, exotics & predator fencing, or security fencing applications.
- ✓ **Flexible**
 - Tension curves allows for the fence to flex under pressure but still retain its form.
- ✓ **Choice**
 - A range of sizes with customised horizontal line wires, fence heights and roll lengths to suit any application.
- ✓ **Traceability**
 - This product is batch marked and can be traced back to point of manufacture.

Hex Wire Netting 13mm

bayoGAL®

Bayonet 13mm Hex Wire Netting has a multitude of uses for avid lifestylers, including chicken coops, small animal cages, bird aviaries, board walks, and craft.

bayoGAL®

Manufactured using Standard Galvanised wire.

Applications

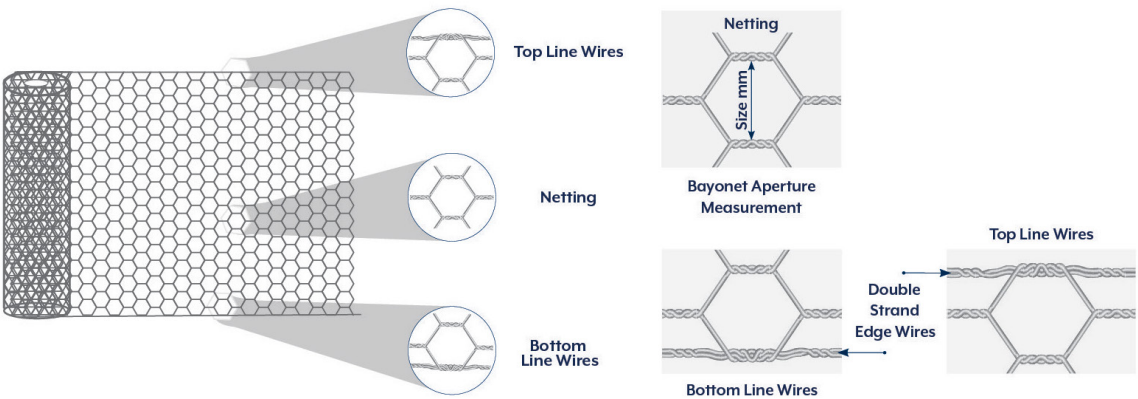

- ✓ Chicken Coops
- ✓ DIY
- ✓ Animal Cages
- ✓ Board Walks
- ✓ General Purpose
- ✓ Aviaries

Bayonet 13mm Hex Wire Netting makes an effective anti-slip for boardwalks and can be used in construction as concrete brick and block reinforcement. Other common uses include chicken coops, animal cages, aviaries, lifestyle farm applications and DIY, garden, and craft applications.

Features

- ✓ **Eco Friendly**
 - 100% recyclable.
- ✓ **Strength**
 - Twin edge wires for ease of tensioning and strength.
- ✓ **Choice**
 - A range of sizes with various heights & lengths.
- ✓ **Corrosion Protection**
 - Manufactured using BayoGal Standard Galvanised wire.

Hex Wire Netting 19mm

bayoGAL^{PLUS}®

Made in the Bay of Plenty, Bayonet is proud to be New Zealand's only Hex Netting manufacturer. Our 19mm Hex Wire Netting is made by Kiwis for a multitude of classic 'Do It Yourself' Kiwi projects.

bayoGAL^{PLUS}®

Manufactured using Heavy Galvanised wire for extended life over BayoGal.

Applications

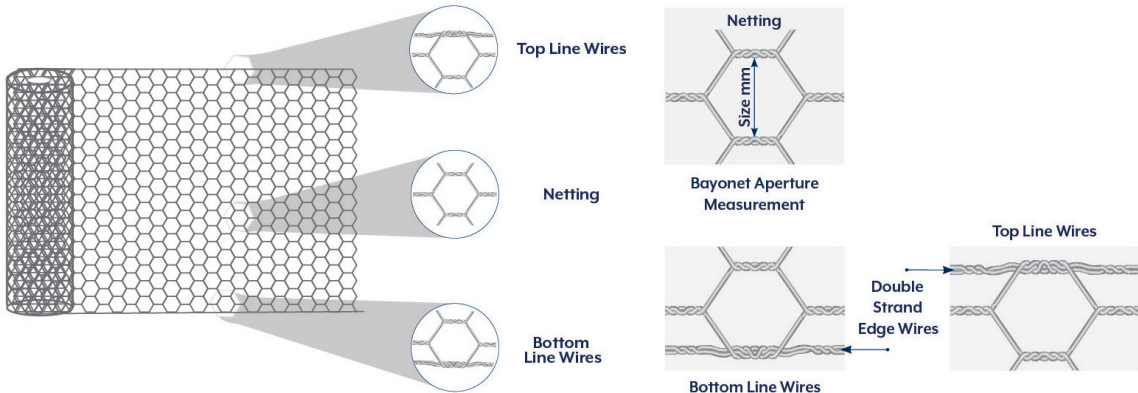

- ✓ Chicken Coops
- ✓ Gardening
- ✓ Plaster Netting
- ✓ Pet Cages
- ✓ General Purpose
- ✓ Aviaries

Bayonet 19mm Hex Wire Netting can be used for dog and chicken runs, fencing and gardening projects, pet cages, aviaries – and even as an anti-slip for boardwalks. Manufactured after galvanising and available in a range of roll lengths.

Features

- ✓ **Strength**
 - Twin edge wires for ease of tensioning and strength.
- ✓ **Cost Effective**
 - Super-sized inner core ensures full length of netting unrolls easily.
 - Can be used on material handling equipment.
- ✓ **Eco Friendly**
 - 100% recyclable.
- ✓ **Corrosion Protection**
 - Heavy Galvanised 150g/m2 BayoGal Plus coating improves durability and rust resistance, for extended life over BayoGal.
 - Manufactured after galvanised coating.
- ✓ **New Zealand made**

Hex Wire Netting 25mm

bayoGAL^{PLUS}®

We make 25mm Hex Wire Netting in the Bay of Plenty too! It's made for New Zealand's harsh environment and the Kiwis who make it couldn't be prouder.

bayoGAL^{PLUS}®

Manufactured using Heavy Galvanised wire for extended life over BayoGal.

Applications

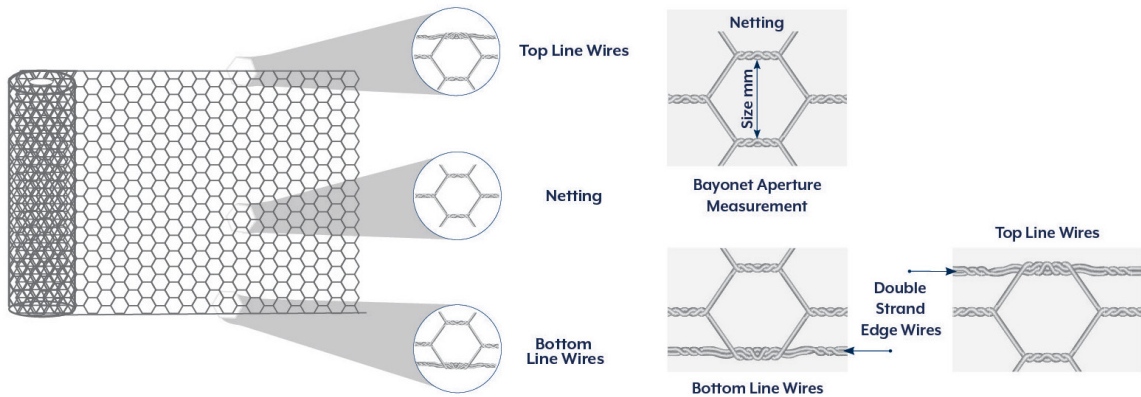

- ✓ Plaster Netting
- ✓ Rural Fencing
- ✓ General Purpose
- ✓ Gardening
- ✓ Animal Cages

Bayonet 25mm Hex Wire Netting can be used for creating a new home for the hamsters, building a frame to support your runner beans, reinforcing mesh for your stucco plaster wall cladding, and assisting as a barrier for feral exclusion in rural fencing. A Heavy 150g/m² Galvanised coating for extended life over BayoGal offers durability and rust resistance. Twin edge wires for ease of tensioning and a super-sized core that ensures netting unrolls easily all the way to the end.

Features

- ✓ **Strength**

Hex Wire Netting 38mm

bayoGAL^{PLUS}®

We have manufactured Hex Netting in the Bay of Plenty since 1972. Our new 38mm Hex Wire Netting is an evolution of listening to Kiwi Farmers and manufacturing a solution to their needs.

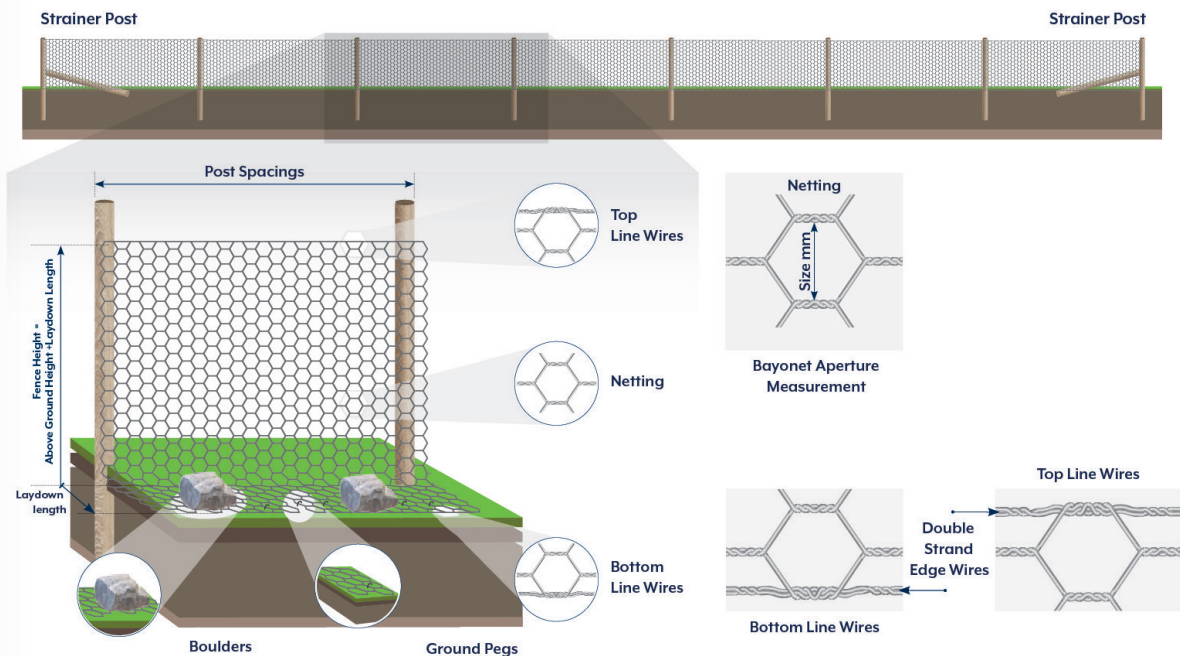

Bayonet 38mm Hex Wire Netting is most commonly used in rural applications to assist as a barrier in the control of feral animals such as rabbits and wallabies. It can also be laid flat on the ground or used as an apron to assist in controlling burrowing animals. The super-sized core reduces wastage as the netting unrolls easily right to the very end of the roll. Manufactured after galvanising and available in a range of heights and lengths.

Features

- ✓ **Strength**
 - Twin edge wires for ease of tensioning and strength.
- ✓ **Cost Effective**
 - Super-sized inner core ensures full length of netting unrolls easily.
 - Can be used on material handling equipment.
- ✓ **Eco Friendly**
 - 100% recyclable.
- ✓ **Corrosion Protection**
 - Heavy Galvanised 185g/m2 BayoGal Plus coating improves durability and rust resistance, for extended life over BayoGal.
 - Manufactured after galvanised coating.
- ✓ **New Zealand made**

Hex Wire Netting 38mm Centre Strand

MAXLINE®

Bayonet's BayoGal Plus 38mm Centre Strand Netting has been used by Sheep Farmers across New Zealand at docking time for decades. Lightweight yet robust, this Hexagonal Wire Netting can be re-rolled and re-used year after year.

bayoGAL^{PLUS}

Manufactured using Heavy Galvanised wire for extended life over BayoGal.

Applications

- ✓ Temporary Docking Netting
- ✓ General Purpose
- ✓ Rural Fencing

Bayonet has been making Centre Strand Netting in the Bay of Plenty for decades. Primarily used by our Kiwi Sheep Farmers at docking time as an animal-friendly solution to temporary yards. Now featuring 38mm aperture hexagons and with an upgrade to 4 horizontal centre strand wires, we have given our Centre Strand Netting the MAXLINE treatment.

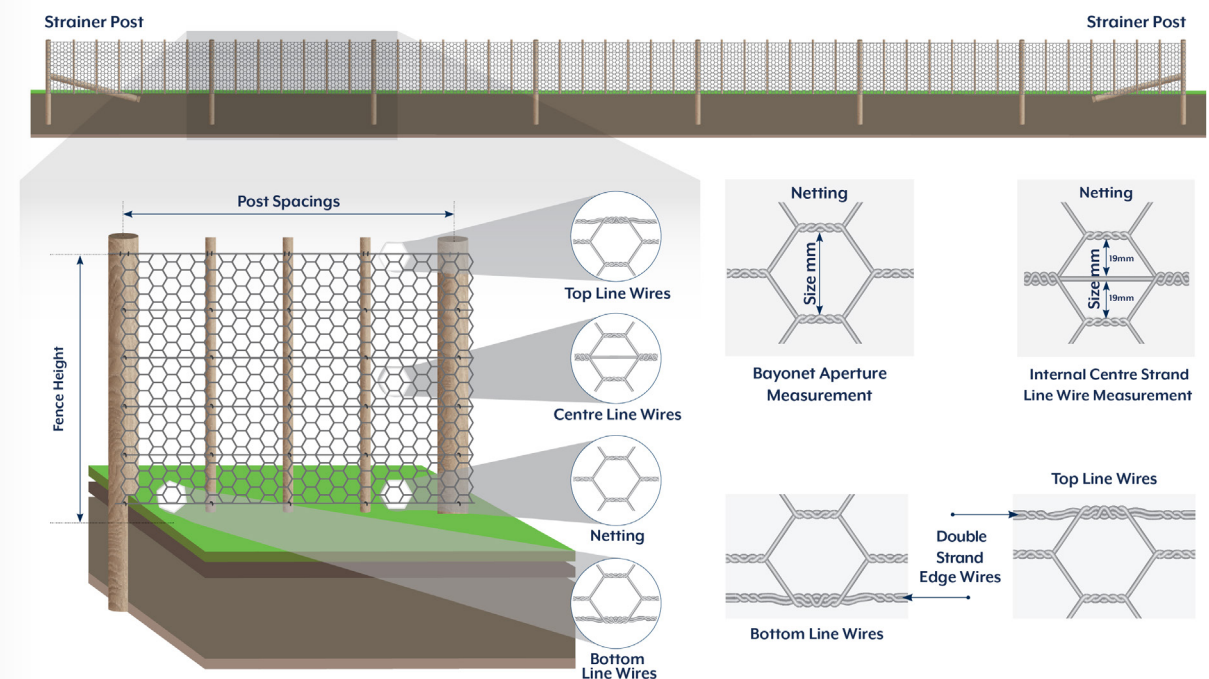

Features

- ✓ **Strength**
 - Twin edge wires for ease of tensioning and strength.
 - 4 x 1.4mm horizontal centre strand wires.
- ✓ **Cost Effective**
 - Super-sized inner core ensures full length of netting unrolls easily.
 - Can be used on material handling equipment.
- ✓ **Eco Friendly**
 - 100% recyclable.
- ✓ **Corrosion Protection**
 - Heavy Galvanised 185g/m² BayoGal Plus coating improves durability and rust resistance, for extended life over BayoGal.
 - Manufactured after galvanised coating.

Hex Wire Netting 38mm Multi Strand

MAXLINE®

Kiwi Farmers asked us for a higher level of protection, so we added more wire! Introducing Bayonet's patented, 38mm Hex Wire Netting Multi Strand.

With some good old Kiwi ingenuity, we have completely redesigned one of our hex netting machines to include 20 x 1.4mm horizontal line wires through the lower section of the fence. These 20 horizontal line wires give an unparalleled level of assistance to preventing feral animal movement with a hex netting fence.

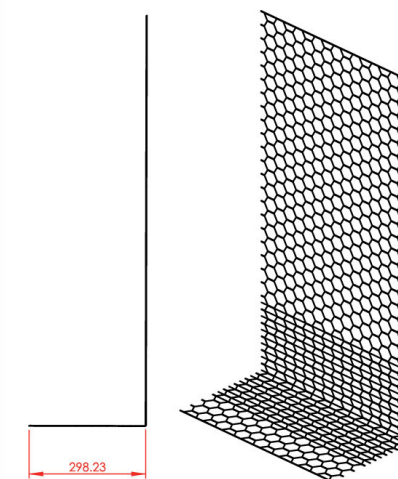

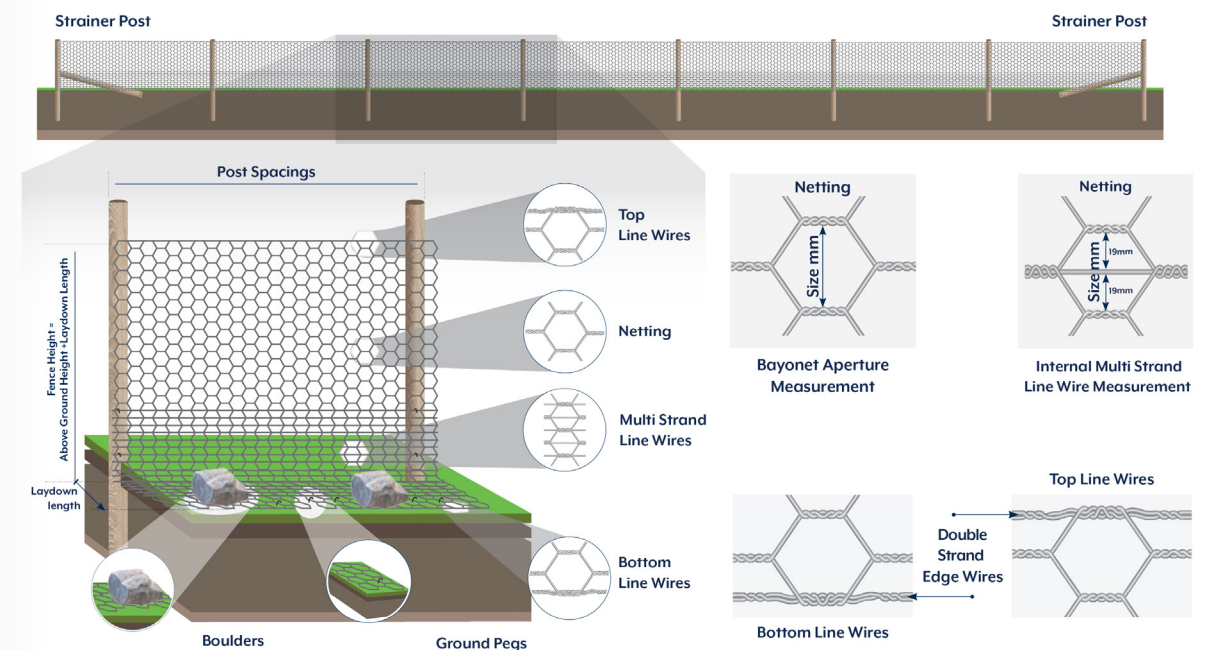

Features

- ✓ **Strength**
 - Twin edge wires for ease of tensioning and strength.
 - 20 x 1.4mm horizontal centre strand wires.
- ✓ **Cost Effective**
 - Super-sized inner core ensures full length of netting unrolls easily.
 - Can be used on material handling equipment.
- ✓ **Eco Friendly**
 - 100% recyclable.
- ✓ **Corrosion Protection**
 - Heavy Galvanised 185g/m2 BayoGal Plus coating improves durability and rust resistance, for extended life over BayoGal.
 - Manufactured after galvanised coating.
- ✓ **New Zealand made**
- ✓ **Patented**

Product Size

Stock Code	Roll Height (MM)	Aperture (MM)	Wire Diameter (MM)	Roll Length (LM)	Roll Weight (KG)
HNI200381450BGPM5	1200	38	1.4	50	58

Fence Layout

As shown in the diagram:

- 20 horizontal line wires begin approximately 120mm from the bottom edge line wire.
- There are 10 horizontal line wires up the fence and 10 horizontal line wires on the ground.
- Approximately 300mm of netting is used as an apron when laid flat on the ground to assist in the control of burrowing feral animals.

bayoGAL^{PLUS}

Manufactured using Heavy Galvanised wire for extended life over BayoGal.

Applications

- ✓ Rural Fencing
- ✓ A barrier to assist in control of feral animals

Hex Wire Netting 50mm

bayoGAL^{PLUS}®

Hex Netting is in our DNA at Bayonet. We proudly manufacture a wide range of Hex Netting products and our 50mm Hex Wire Netting has been part of our story from the start.

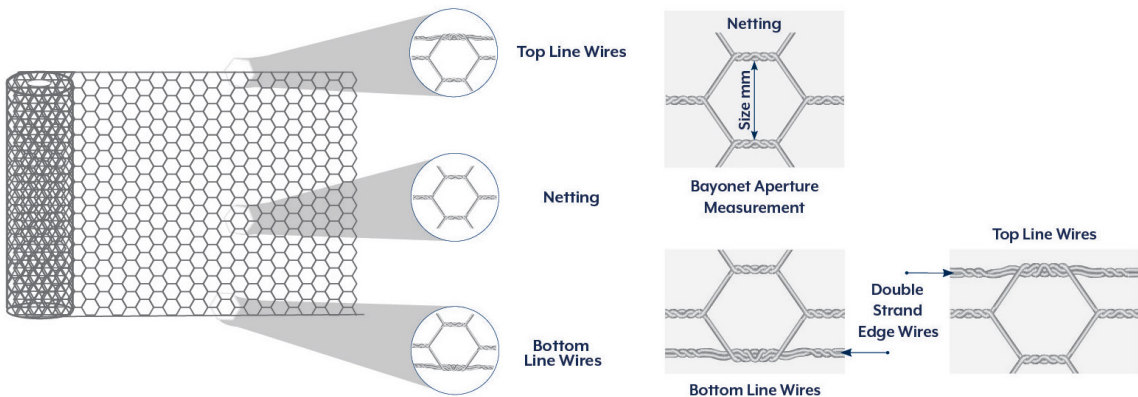

From chicken runs and general garden use, to pet cages and anti-slip netting on boardwalks, our 50mm Kiwi-Made Hex Wire Netting is a great choice. Manufactured after galvanised coating and available in a range of heights and lengths to suit your needs.

Features

- ✓ **Strength**
 - Twin edge wires for ease of tensioning and strength.
- ✓ **Cost Effective**
 - Super-sized inner core ensures full length of netting unrolls easily.
 - Can be used on material handling equipment.
- ✓ **Eco Friendly**
 - 100% recyclable.
- ✓ **Corrosion Protection**
 - Heavy Galvanised 150g/m2 BayoGal Plus coating improves durability and rust resistance, for extended life over BayoGal.
 - Manufactured after galvanised coating.
- ✓ **New Zealand made**

bayoGAL^{PLUS}®

Manufactured using Heavy Galvanised wire for extended life over BayoGal.

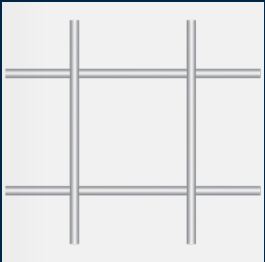

Applications

- ✓ Chicken Runs
- ✓ Gardening
- ✓ DIY
- ✓ Pet Cages
- ✓ General Purpose

Welded Mesh

bayoGAL®

Choose the right steel mesh for the job with Bayonet's Welded Mesh. Suitable for fencing and tree guards, to animal housing and boardwalk anti-slip.

bayoGAL®

Manufactured using Standard Galvanised wire.

Applications

- ✓ General Purpose
- ✓ Tree Guard
- ✓ Animal Housing
- ✓ Anti-slip Board-walks

Suitable for an array of general purpose applications, from fencing, gardens and tree guards, to animal housing and boardwalk anti-slip. It's also used in the construction industry for fencing panels and partitions. Hot Dipped Galvanised to improve strength and longevity, this is the welded mesh you can depend on. Available in a range of widths, hole sizes, wire diameters and lengths. Whatever your project, Bayonet has a welded mesh to suit!

Features

- ✓ **Durable**
 - Hot dipped galvanised
- ✓ **Choice**
 - A range of sizes with various heights & lengths.
- ✓ **Corrosion Protection**
 - Manufactured using BayoGal Standard Galvanised wire.
- ✓ **Eco Friendly**
 - 100% recyclable.

Wiremark® Fencing Wire

WIREMARK®
NEW ZEALAND MADE
BY PACIFIC STEEL

New Zealand made Wiremark® Fencing Wire.

Wiremark® is the only locally made wire in New Zealand and represents a mark of quality which endorses the wire as being made for our tough conditions.

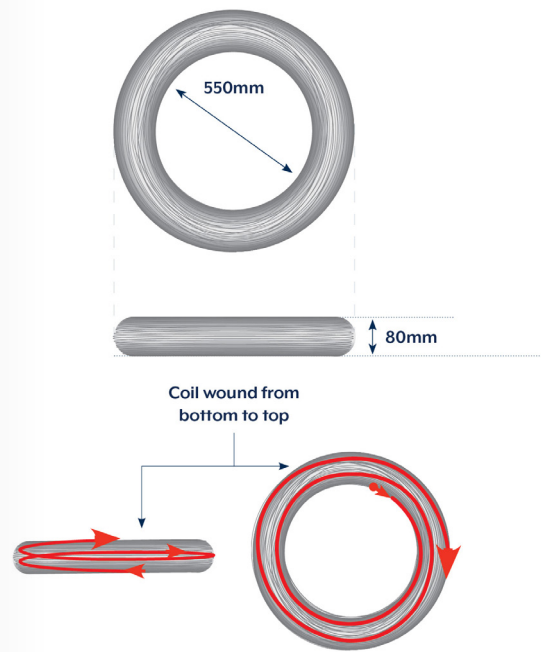

Available in a wide range of diameters and tensiles, we've got coiled wire to suit every job, from fencing and tie applications, to lacing and reinforcing.

Also available, Bayonet BayoZal Plus - A heavier coat weight than BayoZal for high corrosion environments.

Features

- ✓ **Corrosion Protection**
 - Made in NZ for our tough conditions with a 95/5 Zinc Aluminium coating for lifecycle performance.
- ✓ **Eco Friendly**
 - Recyclable and Eco Choice Aotearoa certified.
- ✓ **Flexible**
 - Coiled directly off the mill for ease of use, not recoiled.
- ✓ **Choice**
 - Available in both BayoZal or BayoZal Plus coatings.
- ✓ **New Zealand made**

Manufactured using a heavy coatweight of Zinc-Aluminium wire for extended life over BayoZal.

Applications

- ✓ Coastal
- ✓ High Corrosion Environments

Coiled Wire

bayoZAL®

Super durable, easy to use and coiled here in New Zealand.

Coiled at Bayonet's Tauranga factory using high quality stock designed for New Zealand's tough conditions. With a 95% zinc / 5% aluminium coating, it lasts longer than heavily galvanised wire. Not only that, but it unrolls easily, lies flat and comes with a tie-easy and tangle-free guarantee.

Available in a wide range of diameters and tensiles, we've got coiled wire to suit every job, from fencing and tie applications, to lacing and reinforcing.

Features

- ✓ **Corrosion Protection**

 - Designed to withstand New Zealand's harsh weather and chemicals thanks to BayoZal's 95% zinc / 5% aluminium wire.
- ✓ **Cost Effective**

 - Coiled in New Zealand by Bayonet, removing and reinstating the helix allowing coils to lie flat and unroll easily for application.
- ✓ **Eco Friendly**

 - 100% recyclable.
- ✓ **Flexible**

 - Malleable allowing it to tie easy and be tangle free.

Iowa Barbed Wire

bayoZAL®

Protect your assets with Bayonet Iowa Barbed Wire – a strong, long lasting solution for all your farm fencing and security needs.

bayoZAL®

Manufactured using a medium coatweight of Zinc-Aluminium wire for extended life over BayoGal Plus.

Applications

- ✓ Farm Fencing
- ✓ Commercial Fencing

Highly durable with a 95% zinc / 5% aluminium coating, it lasts longer than heavily galvanised wire, and is designed to withstand New Zealand's harsh climate, chemical sprays, pesticides and insecticides. Ideal as a single line wire at the top of post and batten fencing, or use dual wires to prevent battens slipping. Eco-friendly, easy to install, and strong thanks to its securely locked barbs.

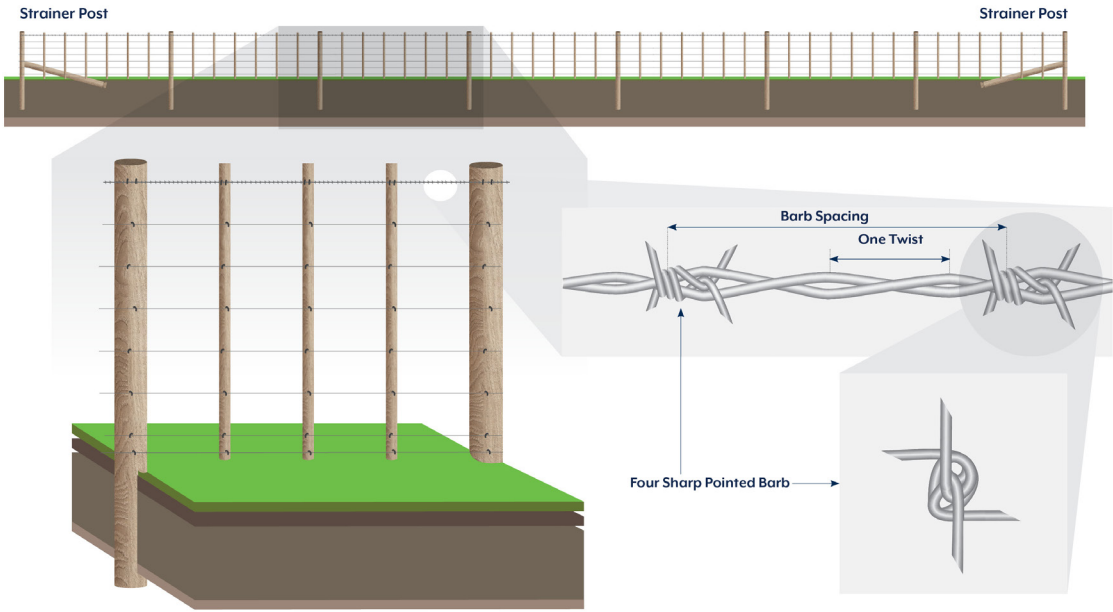

Features

- ✓ **Durable**
 - Designed to withstand adverse weather, humidity, various chemical sprays, pesticides and insecticides.
- ✓ **Corrosion Protection**
 - Designed to withstand New Zealand's harsh weather and chemicals thanks to BayoZal's 95% zinc / 5% aluminium wire.
- ✓ **Strength**
 - Iowa Barbs are locked in place and held firmly.
- ✓ **Eco Friendly**
 - 100% recyclable.

Reverse Twist Barbed Wire

bayoZAL®

Need barbed wire for your next rural or commercial fencing project? Look no further than Bayonet's Reverse Twist Barbed Wire.

bayoZAL®

Manufactured using a medium coatweight of Zinc-Aluminium wire for extended life over BayoGal Plus.

Applications

- ✓ Farm Fencing
- ✓ Commercial Fencing

Whether you're fencing for livestock control or beefing up your security fencing - Bayonet's easy to use Reverse Twist Barbed Wire gets the job done.

Made from a reverse twisted double strand of 1.6mm high tensile wire, barbs are securely locked in place at regular intervals – no more twisting and sliding! Designed for rural and commercial applications, this is the go-to barbed wire for both conventional post and batten fencing and top quality security fencing.

Features

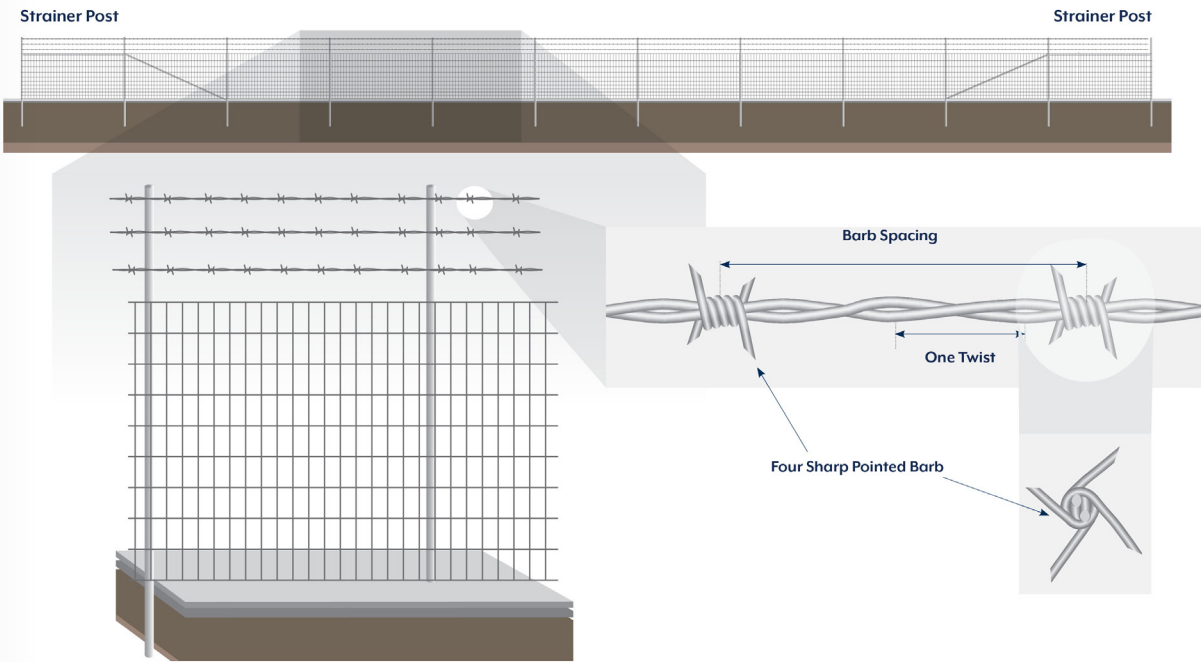

- ✓ **Durable**
 - Designed to withstand adverse weather, humidity, various chemical sprays, pesticides and insecticides.
- ✓ **Corrosion Protection**
 - Designed to withstand New Zealand's harsh weather and chemicals thanks to BayoZal's 95% zinc / 5% aluminium wire.

Fence Layout

Double Strand Wire

bayoZAL®

Choose Bayonet's BayoZal coated Double Strand Wire for an animal friendly solution for livestock control.

Made from a continuous twisted low tensile double strand of 2.5mm wire, with Bayonet's BayoZal 95% zinc / 5% aluminium coating. Our Double Strand Wire is designed to tolerate New Zealand's harsh weather, humidity, chemical sprays, pesticides and insecticides. Most commonly used to prevent battens slipping on conventional post and batten fencing, the dual strands boost visibility and strength and are easy to install. Plus, the fact that it's barb-free means your animals will love you for it.

Features

- ✓ **Durable**

 - Designed to withstand adverse weather, humidity, various chemical sprays, pesticides and insecticides.
- ✓ **Corrosion Protection**

 - Designed to withstand New Zealand's harsh weather and chemicals thanks to BayoZal's 95% zinc / 5% aluminium wire.
- ✓ **Eco Friendly**

 - 100% recyclable.
- ✓ **Animal Friendly**

 - No barbs - allowing no damage to livestock.
- ✓ **Efficient**

 - Helps prevent battens slipping.

Fence Layout

Slice Cut Staples Plain

bayoZAL®

New Zealand made staples, manufactured by Bayonet in the Bay of Plenty.

Our staples have 5 degree splayed legs that twist in opposite directions when driven and a 95% zinc / 5% aluminium coating protect against adverse weather and chemical sprays, giving them extended life over BayoGal Plus. Plain staples are available in a range of sizes - 50mm for soft posts, 40mm staples for hard posts and 30mm for battens.

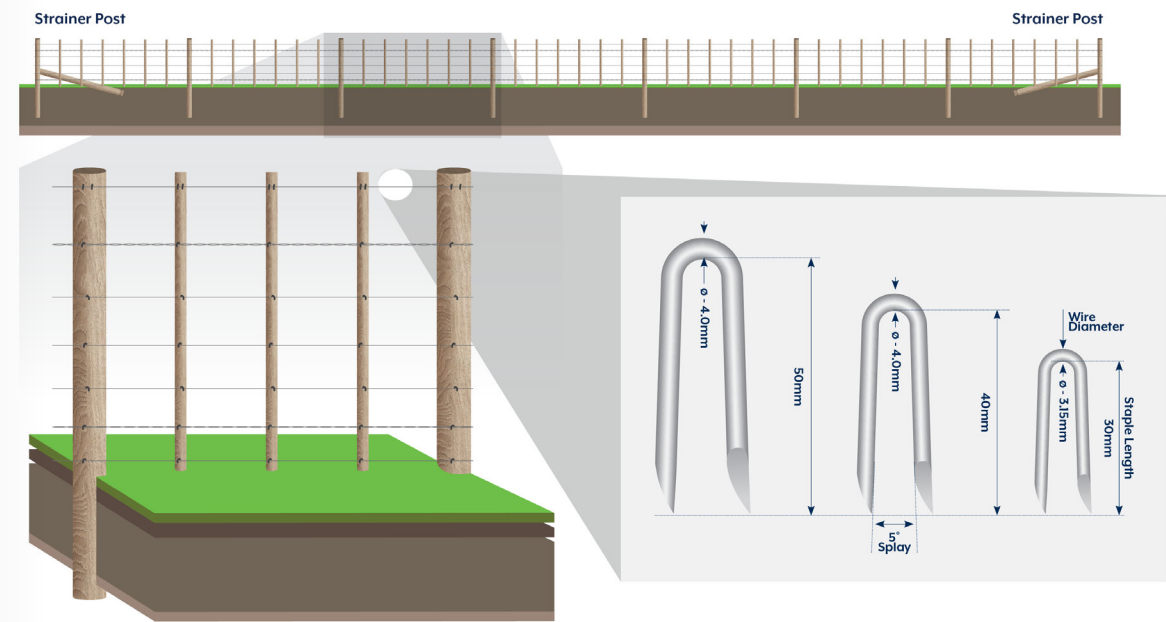

Features

- ✓ **Strength**

 - Featuring 5 degree splayed legs causing playing outwards when driven, providing further holding strength in softwood posts.
 - Slice cuts assist with staple splay when driven.
- ✓ **Corrosion Protection**

 - Designed to withstand New Zealand's harsh weather and chemicals thanks to BayoZal's 95% zinc / 5% aluminium wire.

Slice Cut Staples Barbed

bayoZAL®

New Zealand made staples, manufactured by Bayonet in the Bay of Plenty.

Barbed legs keep staples firmly anchored even if posts dry and split, and splayed legs and opposing slice cuts supply further reinforcement. Barbed staples are available in a range of sizes – 50mm for soft posts, 40mm for hard posts and 30mm for battens.

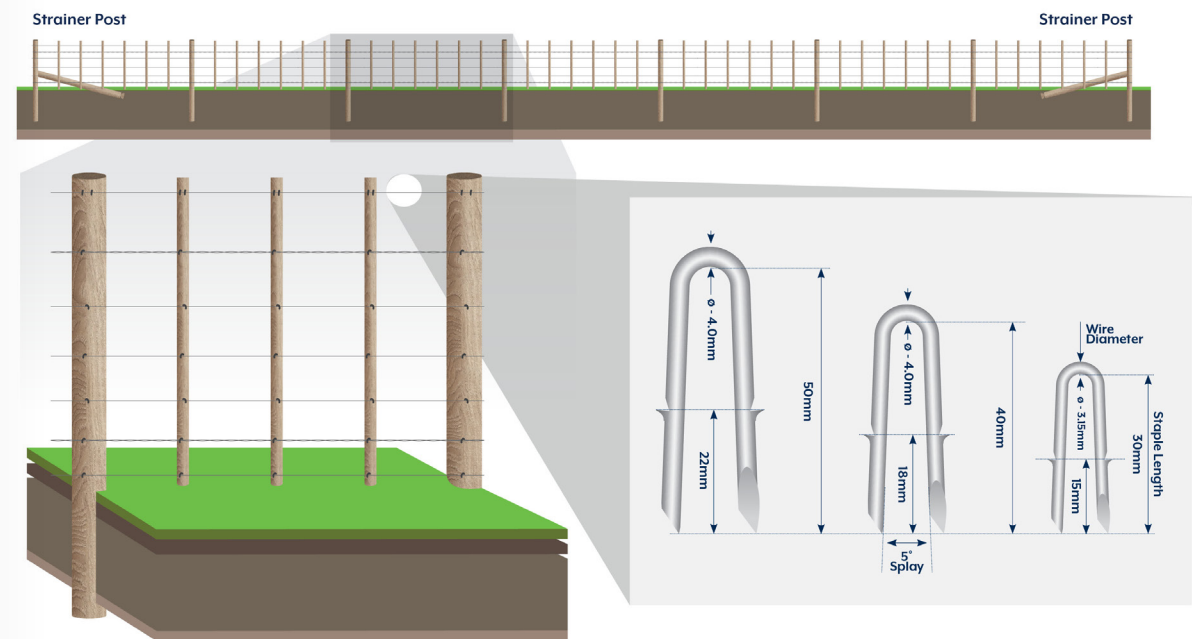

Features

- ✓ **Strength**

 - Featuring barbs on each leg to provide holding strength in softwood posts.
 - Featuring 5 degree splayed legs causing splaying outwards when driven, providing further holding strength in softwood posts.
 - Slice cuts assist with staple splay when driven.
- ✓ **Corrosion Protection**

 - Designed to withstand New Zealand's harsh weather and chemicals thanks to BayoZal's 95% zinc / 5% aluminium wire.

Bayonet Airco Mod.81 Pneumatic Air Ringer

Do you have hundreds of metres of Hex Netting fence to build? Bayonet has the solution for you.

Our Pneumatic Air Ringer is light, well balanced in the hand, and fast, reducing manual effort and increasing productivity.

We have searched the globe for a high quality, high speed, C Ring fastening solution to assist our customers with the installation of Hex Netting fences - securing netting to line wires. Airco deliver the very best in high quality pneumatic and battery powered fencing tool solutions.

Applications

- ✓ Rural Fencing
- ✓ Chainlink, Security Fencing and more
- ✓ Wire Cages
- ✓ Building Construction
- ✓ Car Seats
- ✓ Mattresses
- ✓ Traps
- ✓ Cables
- ✓ Aquaculture

Power indication and belt hook for convenience.

- Portable - no compressor needed.
- Comes in carry case with two batteries and a charger.
- 1 year warranty

Ring Fasteners

For Bayonet Airco Mod.81 Pneumatic Air Ringer & Bayonet Airco Mod.81 Li-Ion Battery Ringer

bayoZAL®

C Ring Fasteners for both Airco Mod.81 Pneumatic Air Ringer & Mod.81 Li-Ion Battery Ringer can be used for a multitude of applications. From securing cables to installing rural fencing, these rings have great versatility to suit the job and come in a box of 10,000.

Features

- ✓ **Efficient**
 - C Ring clinches down from a diameter of 24mm to approximately 4.7mm
- ✓ **Convenient**
 - 10,000 rings per box.
- ✓ **Corrosion Protection**
 - BayoZal 95% zinc / 5% aluminium wire coating for long life.

Bayonet Fastlink Wire Joiner and Tensioning Tool

Want a quick yet effective way to install fencing wire? Bayonet has the solution for you.

Bayonet Fastlink Fence Ender

Solve the challenges of tying off wire at a strainer with our Fastlink Fence Enders.

Push your line wire into the locking mechanism, wrap the fence ender around your strainer post and clip it back over the same wire to create the termination.

Wire Joiners

Features

- ✓ **Compatibility**
 - Fits wires 1.8mm - 3.2mm
 - Works with Bayonet Fastlink Wire Joiner Tensioning Tool
- ✓ **Durable**
 - Galvanised body.
 - Galvanised internal steel roller.
- ✓ **Efficient**
 - Easy release key in every pack.
 - Fast and effective way to join wire.
 - Available in pack sizes of 20 & 300.

Wire Joiner Tensioning Tool

Features

- ✓ **Compatibility**
 - For use with Bayonet Fastlink 1.8mm - 3.2mm Wire Joiners.
- ✓ **Robust**
 - Heavy duty, contractor grade tool designed to be used daily.
 - Delivering a 10:1 mechanical advantage, 400kg of force can be generated.
 - Quick release jaw
 - Fastlink joiner head designed to accomodate other wire joiner brands.

Fence Layout

Wire Ties

bayoGAL^{PLUS}[®]

Bayonet's BayoGal Plus Wire Bag Ties. Pre looped ends for fast tying, and heavily galvanised for durability and rust resistance.

Pre-cut, double looped and low tensile for maximum flexibility and ease of twisting. Available in lengths to suit all your tying needs, from 110mm to 300mm.

Features

- ✓ **Corrosion Protection**

 - Heavy Galvanised BayoGal Plus coating improves durability and rust resistance, for extended life over BayoGal.
- ✓ **Cost Effective**

 - Pre looped ends allow for faster tying with power tools to save on labour versus pre-straightened tie wire.
